Required Walmart Training for PRN Pharmacists

As a condition of our contract with Walmart, our pharmacists who staff Walmart Store shifts, in order to comply with familiarity with a Walmart Corporate Integrity Agreement (CIA), must complete a Walmart Corporate Training course.

The training is administered as a set of text lessons including:

1. Rx CIA & Compliance Program Training 2005: This CBL text lesson introduces and gives requirements for the **Corporate Integrity Agreement (CIA)**, the actions Wal-Mart Stores, Inc. has taken to comply with CIA, and a summary of the required training and educational pieces, including the **Pharmacy Code of Conduct**, and **Your CIA and Code of Conduct obligations**.

2. Pharmacy Specific CIA Training 2005: This CBL text lesson covers Walmart's policy and specific procedures on the handling of third party and cash paying partially filled prescriptions. This consists of stringent guidelines with regard to Partial Fill prescriptions or any other situation that could result in a Third Party paying more than the amount due.

Additional instructions, and information are part of the text lessons.

Upon completion of these text lessons you must sign a **Pharmacy Certification Form for Independent Contractors**. Please, **immediately** after completing the CBL Lessons, sign and send a copy of the Certification Form to our business office at: **866.225.3430** (toll free fax) or scan and attach the Certification Form to an e-mail message addressed to sallye@rphprnusa.com You may send it via mail to Health Research Associates, PO Box 1233, Kennesaw, GA 30156.

Please complete and send this Form to PRN, immediately. This form **must** be on file at the Walmart corporate office, **PRIOR** to you working your first shift at Walmart

In addition, you must fill out the enclosed **Timesheet** when working a Walmart shift. It must be faxed to the PRN Office at the end of each work week (Saturday).
